PROFESSIONAL SUMMARY

Detail-oriented and highly motivated Frontend Developer with a background in administrative and data management roles. Proficient in HTML and CSS, with steadily strengthening expertise in JavaScript and React through hands-on project development. Experienced in building responsive, user-friendly web applications and improving efficiency within structured environments. Passionate about creating intuitive digital experiences and eager to contribute to a frontend internship role.

TECHNICAL SKILLS

Languages: HTML5, CSS3, JavaScript, React

Tools: Git, GitHub, Visual Studio Code

Core Competencies: Responsive Web Design, UI Development

Focus Areas: Advanced JavaScript (DOM, APIs), React

PROJECTS

CV Builder Web App (In Progress)

- Developing a dynamic web application for creating and downloading professional CVs in real time
- Implementing responsive design for seamless use across devices
- Building features such as live preview, form validation, and PDF generation
- Designing a clean and user-friendly interface for efficient CV creation

Quiz Application

- Built using React with component-based architecture
- Implemented real-time scoring, timer functionality, and instant feedback
- Optimized for mobile and desktop responsiveness
- Enhanced engagement through interactive UI design

Calculator App

- Developed using HTML5, CSS3, and JavaScript
- Designed responsive layout with Flexbox and CSS Grid
- Implemented arithmetic operations and smooth user interactions

Mini Applications (To-Do List, Counter, OTP Generator)

- Developed multiple apps using vanilla JavaScript
- Implemented local storage, DOM manipulation, and event handling

- Strengthened core frontend and state management concepts
